

## RING SIZE GUIDE USING A RING

Be sure this guide is printed in A4 size and scaled to 100% before measuring your ring.

If the card lines up, you can start measuring.

---

### Measuring by matching your ring

To find your US ring size, use an existing ring that fits you well. Match the inside of the ring with one of the circles below. Go from the smallest circle until the black area fills up the inside of ring entirely. When you find the right circle that matches your ring, please check our Ring Size Guide on our website page to know your US ring size.
